## MEDICAL INFORMATION/POLICY LETTER 2016~2017

931 Atwood Ave.  
Johnston, RI 02919  
Tel: (401) 944-2993  
Fax: (401) 944-3019  
www.stroccoschool.org

Dear Parents/Guardians,

The following information should be helpful to you for registration. All information requested is **required** by the RI Department of Health. **Your child will not be able to attend school if the requirements are not met.**

1. The required immunizations for Pre-K students are enclosed. Also, the child needs record of a physical exam within the last year.
2. Kindergarten students are required to have an updated immunization record. There are shots that your child will receive between Pre-K and Kindergarten. We do understand that some children will be visiting the doctor after registration. You will receive another reminder as soon as we return back to school in the fall. You may also forward this information to the school as soon as you receive it.
3. Grades 3 and 6 students will receive a physical form to be completed for the upcoming school year. Incoming Grade 7 students are required to get a Tetanus booster, a 2<sup>nd</sup> Varicella and a 2<sup>nd</sup> Meningococcal vaccine upon entry to school.

### MEDICATIONS

Listed below is the medication policy. Please review it. If your child needs to take medication during school hours, the medication consent form must be signed by a parent and completed by a physician. Children will not be allowed to carry medication to school. The school nurse must check and manage all medications brought in by a parent or guardian. A *Medication Consent Form* is available on the web-site under the *Forms* tab. Please contact the School Nurse with any health information you consider important for her to know or any questions you have concerning medications.

\*Students **may** self-carry an **inhaler** during school hours with a Physician's order.

\*Students are **not allowed** to self-carry an **Epi-Pen** or other **medication** during school hours. Any exceptions to this policy will be made on a case by case basis and with a Physician's order.

**\*Remember, a new doctor's order is required each school year for medications.**

### ALLERGIES

Please let us know upon registration, if your child has a food or environmental allergy that is severe enough to need emergency medication (Benadryl or Epi-Pen). Again, the medication policy will apply. Emergency medications are kept accessible to only school faculty and staff. As always, an updated doctor's order and plan of care apply.

### POLICY FOR THE ADMINISTRATION OF MEDICATION IN SCHOOL

1. All medications brought to school must be in their original container with pharmacy label displaying child's name.
2. Except in the case of an emergency situation, only a school nurse or a student's parent or legal guardian is authorized to dispense medication to students. In a life-threatening situation, any personnel may administer emergency medication.

**OVER**

3. Prescriptions and non-prescription medication will be dispensed by the school nurse only when:
  - a written order is provided by the licensed health care provider, AND/or
  - it is authorized in writing by the parent or legal guardian, AND/or
  - medication is received in the original labeled container.
4. All medication dispensed in school must be done in accordance with the Procedure for Administration of Medication in School
5. Inhalers (may be self-carry), Epi-Pens, or other medications may be self-administered with written authorization from both parent and physician. These medications are to be stored in the health room unless written authorization from a licensed health care provider states otherwise. Epi-pen will be kept by homeroom teacher and will be sent with student to each class room throughout the day. If the child attends extended care the Epi-pen will be brought there as well and the teacher will return it to the child's homeroom teacher's mailbox. Students may self-administer medications in the presence of the school nurse or a school employee.
6. No student will be allowed to transport medication to and from school with the exception of emergency medications. All other medications must be transported by a parent or another adult.
7. Controlled substances (i.e. Ritalin, Dexedrine, etc.) brought into school and the medication must be counted as outlined in the Procedure for Administration of Medication in School.
8. All medication will be kept in a secured cabinet, with the exception of emergency medication. Emergency medication will be stored in a predetermined location in each individual school, accessible to student and personnel who may assist the student.
9. In the case of field trips, inhalers, EpiPens or other medications will be carried by the teacher or the assigned chaperone of the student. Teachers may carry medications only when:
  - it is requested in writing by the licensed health care provider, and
  - it is authorized in writing by the parent/legal guardian, and
  - it is in consultation with school nurse and administration, and
  - medication is provided by the parent/legal guardian in original labeled container, and
  - it is done in accordance with the field trip section of the Procedure for Administration of Medication in School.
10. Medication sent in a plastic bag with a note will not be administered by the nurse. Parent/Guardian will be contacted to come in and to administer the appropriate dosage to the student at the appointed time.

\*After reading this, please confirm acceptance with your **required signature** on the enclosed **“Signature Form”** included in this packet.

Thank you,

---

Amelia Lato, R.N. (St. Rocco School Nurse)

---

Deborah Gannon, R.N. (Johnston School Nurse)

**CHRIST** is the reason for this school.
